****FOR IMMEDIATE RELEASE**** ****Google Cloud and Mayo Clinic Announce Strategic Partnership to Accelerate Healthcare Innovation**** MOUNTAIN VIEW, CA – October 26, 2023 – Google Cloud and Mayo Clinic today announced a new strategic partnership focused on accelerating the use of artificial intelligence (AI) and cloud computing to transform healthcare delivery and research. This multi-year collaboration will leverage Google Cloud's advanced AI capabilities, data analytics tools, and secure cloud infrastructure alongside Mayo Clinic's deep clinical expertise and vast medical data to develop innovative solutions for patients and providers. The partnership will concentrate on several key areas, including enhancing diagnostic accuracy using AI-powered image analysis, personalizing treatment plans based on patient data, and improving operational efficiency within healthcare settings. Joint research initiatives will explore the potential of AI to predict disease outbreaks, identify new drug targets, and develop more effective preventative care strategies. The collaboration will also emphasize ensuring responsible AI practices, with a strong focus on data privacy, security, and ethical considerations. "We are thrilled to partner with Mayo Clinic to advance the future of healthcare through the power of cloud and AI," said Thomas Kurian, CEO of Google Cloud. "By combining Google Cloud's technology with Mayo Clinic's clinical knowledge, we can create solutions that have the potential to improve patient outcomes, reduce healthcare costs, and make healthcare more accessible for everyone." Google's mission is to organize the world's information and make it universally accessible and useful. Through products and platforms like Search, Maps, Gmail, Android, Chrome, YouTube, and Google Cloud, Google plays a meaningful role in the daily lives of billions of people and has become one of the world's best-known companies. ****Contact:**** Contact (support@google.com)
