

Google Announces Strategic Partnership

Google

****FOR IMMEDIATE RELEASE**** ****Google Cloud Expands Global Footprint with New Data Center Region in Malaysia**** KUALA LUMPUR, MALAYSIA – October 26, 2023 – Google today announced the launch of its new Google Cloud region in Malaysia, marking a significant expansion of its cloud infrastructure in Southeast Asia. This new region will provide businesses and organizations in Malaysia and the surrounding region with faster access to Google Cloud's suite of services, including computing, storage, networking, artificial intelligence, and data analytics. The Malaysia cloud region is designed to meet the growing demand for cloud services in the region, enabling businesses to innovate, scale, and transform their operations with greater speed and reliability. By hosting data locally, Malaysian organizations can benefit from reduced latency, improved compliance with data residency regulations, and enhanced security for their sensitive information. The new region will also feature Google Cloud's commitment to sustainability, aligning with Google's global goal of operating on 24/7 carbon-free energy by 2030. Google has also partnered with local educational institutions to offer training and resources to develop a skilled workforce ready to utilize the new cloud infrastructure. "Malaysia is a key market in Southeast Asia with a rapidly growing digital economy," said Thomas Kurian, CEO of Google Cloud. "This new cloud region demonstrates our commitment to supporting the digital transformation of businesses across Malaysia and empowering them with the tools and infrastructure they need to succeed in the cloud. We believe this region will unlock new opportunities for innovation and growth, contributing to Malaysia's vision of becoming a regional digital hub." Google's mission is to organize the world's information and make it universally accessible and useful. Through products and platforms like Search, Maps, Gmail, Android, Google Cloud, and YouTube, Google plays a meaningful role in the daily lives of billions of people and has become one of the world's best-known companies. ****Contact:**** Google Support support@google.com
