SAP Expands Operations

SAP

FOR IMMEDIATE RELEASE **SAP S/4HANA Cloud Public Edition Accelerates Growth with Enhanced AI-Powered Capabilities** WALLDORF, Germany – October 26, 2023 – SAP SE (NYSE: SAP) today announced significant enhancements to its SAP S/4HANA Cloud, public edition, platform, embedding advanced Artificial Intelligence (AI) capabilities to streamline business processes and drive faster time to value for midsize and large enterprises. The latest release focuses on intelligent automation across key business functions, including finance, supply chain, and manufacturing. New AI-powered features provide predictive analytics, proactive issue resolution, and optimized resource allocation, empowering businesses to make data-driven decisions and adapt to evolving market dynamics. Specifically, enhanced demand forecasting powered by machine learning will allow for more accurate inventory management, while AI-driven invoice processing will significantly reduce manual effort and improve payment accuracy. Furthermore, SAP is collaborating with industry partners to integrate specialized AI models that cater to specific vertical industries, further customizing the solution for individual customer needs. "SAP is committed to delivering intelligent and sustainable solutions that help our customers thrive in the digital age," said Christian Klein, CEO of SAP SE. "The latest enhancements to SAP S/4HANA Cloud, public edition, demonstrate our continued investment in AI and our dedication to providing businesses with the tools they need to innovate, grow, and remain competitive." SAP's S/4HANA Cloud, public edition, offering allows customers to leverage a standardized, multi-tenant cloud environment, benefitting from regular updates and rapid innovation. These latest AI enhancements will be rolled out to existing customers in phases, with new customers gaining immediate access to the full suite of functionalities. As the Experience Company powered by the Intelligent Enterprise, SAP is the market leader in enterprise application software, helping companies of all sizes and in all industries run at their best: 77% of the world's transaction revenue touches an SAP® system. Our machine learning, Internet of Things (IoT), and advanced analytics technologies help turn customers' businesses into intelligent enterprises. SAP helps give people and organizations deep business insight and fosters collaboration that enables them to stay ahead of their competition. We simplify technology for companies so they can consume our software the way they want – without disruption. Our end-to-end suite of applications and services enables business and public customers across 25 industries globally to operate profitably, adapt continuously, and make a difference. With a global network of customers, partners, employees, and thought leaders, SAP helps the world run better and improve people's lives. Contact: support@sap.com
